

Decision Tree for COVID-19 response for Students/Staff Campbellsville Independent Schools

Student/Staff with COVID-19 signs and symptoms* or a fever > 100.4

Symptom and fever free for 24 hours without taking fever reducing medication **OR** receives a definitive alternate diagnosis from a medical provider and are able to provide documentation stating they may return to school

May return to school

Student/Staff test positive for Covid-19 with symptoms

Student/Staff should remain isolated until they have recovered. The non-test based method isolation requires a person to meet the 3 following criteria:

1. They have been fever free for 24 hours without use of fever-reducing medication **AND**
2. Any symptoms experienced are improving **AND**
3. It has been at least 10 days since the symptoms started **OR**

Student/Staff are released from quarantine by the Health Department/medical provider and are able to provide documentation stating they may return to school

May return to school

Student/Staff test positive for Covid-19 with NO symptoms

Seating charts are provided to the School Nurse

Student/Staff should remain isolated until 10 days after the TEST date. If they develop symptoms at any point during this time, they will need to follow the above symptomatic guidance **OR** Student/Staff are released from quarantine by the Health Department/medical provider and are able to provide documentation stating they may return to school

May return to school

School Nurse contacts the Health Department with list of Student/Staff with household members or close contact to COVID-19 positive

Student or Staff

With contact to COVID-19 positive **household** member

Self-quarantine for 14 days **AFTER** the household member is recovered. If household member does not have symptoms, refer to info above to determine when self-quarantining begins. Recovery requires a case to meet the 3 following criteria:

1. They have been fever free for 3 days without use of fever reducing medication **AND**
2. Any respiratory symptoms experienced are improving **AND**
3. It has been at least 10 days since the symptoms started

With close contact to COVID-19 positive **non-household** member

If social distancing was maintained throughout the time together, then no quarantine is required

Close contact is defined as within 6 feet of a positive case for 15 minutes or longer regardless of mask use of Student/Staff. Self-quarantine for 14 days after their last exposure to the positive case. If symptoms develop, follow guidelines above
